

第 10 回 札幌国際がんシンポジウム

テーマ

“Recent topics in Cancer Research”

日時

1990 年 7 月 6 日

会場

北海道大学 学術交流会館（札幌市北区）

代表世話人

小林 博（北海道大学）

The 10th Sapporo International Cancer Symposium

Theme:

“Recent topics in Cancer Research”

Date:

July 6, 1990

Venue:

Hokkaido University Conference Hall, Sapporo, Japan

Organizing Committee(*Chairperson):

Ohsato Toyoro

Makita Akira

Kuzumaki Noboru

Kobayashi Hiroshi*

Program:

Open Lecture: Recent Topics in Cancer Research

Biological therapy of cancer metastases

I. J. Fidler

Genetic regulation of metastasis

L. A. Liotta

Organ specificity of cancer metastasis is determined by tumor cell molecules and cytokines expressed at particular organ sites

G. L. Nicolson

Viruses as inducers and inhibitors of selective DNA amplification

H. zur Hausen

Genetic alterations in human colorectal tumors

K. W. Kinzler

Prognostic significance of recurrent chromosomal abnormalities and oncogene defects in follicular lymphoma

J. J. Yunis

The American Association for Cancer Research and its relationship to the Japanese Cancer Research Community

M. Foti

Expression and amplification of MDR gene in multiple drug resistant cell lines and tumors

A. V. Gudkov

Site-specific drug delivery and its future in cancer therapy

R. G. Micetich

New approaches in cancer therapeutics

E. Mihich
